

## Observation of One Week Student Week

*Organized by*

*Department of Commerce, Department of Physics and Department of Mathematics  
Egra S.S.B. College, Egra, Purba Medinipur, West Bengal-721429*

**Date: 04.01.2022 to 06.01.2022**

**Venue: Online**

The Department of Commerce, Physics, and Mathematics at Egra S.S.B. College organized a highly successful 'One Week Student Week' from January 5<sup>th</sup> to January 7<sup>th</sup>, 2022. The event featured distinguished resource persons who enriched the academic experience of the 277 participating students.

---

### **Resource Persons and Topics Covered**

---

**Dr. Shashi Nath Mondal**

Associate Professor, WBES, Govt. of West Bengal

*Topic: "Civil Rights Violation and Remedies"*

**Prof. Koushik Chatterjee**

Assistant Professor, Department of Commerce; Professor in-charge, Department of Law, St. Xavier's College, Kolkata

*Topic: "An Understanding of Artificial Intelligence, Machine Learning, and Deep Learning"*

**Mr. Arindam Pal**

Branch In-Charge, Canara Bank, RTPS Branch, West Bengal

*Topic: "Next Generation Banking and Prevention of Online Frauds"*

The inaugural session commenced with a motivating speech by the esteemed Principal, Dr. Dipak Kumar Tamili. Dr. Tamili set the tone for the week, emphasizing the importance of such initiatives in shaping well-rounded individuals. The event aimed to provide students with exposure to diverse subjects and real-world applications.

The first day featured Mr. Arindam Pal, the Branch In-Charge of Canara Bank, RTPS Branch, West Bengal, shared valuable insights on "Next Generation Banking and Prevention of Online Frauds." Mr. Pal's practical knowledge provided students with a glimpse into the dynamic world of banking, emphasizing the importance of cyber security.

The second day Dr. Shashi Nath Mondal, an Associate Professor and WBES member. Dr. Mondal delivered an insightful lecture on "Civil Rights Violation and Remedies," shedding light on contemporary issues and legal remedies. His expertise captivated the audience and sparked engaging discussions among the students.

On the final day, Prof. Koushik Chatterjee, Assistant Professor in the Department of Commerce and Professor in-charge of the Department of Law at St. Xavier's College, Kolkata. Prof. Chatterjee's lecture, titled "An Understanding of Artificial Intelligence, Machine Learning, and Deep Learning," delved into the technological landscape, providing students with a comprehensive overview and fostering an appreciation for the evolving field.

The event concluded with an official vote of thanks delivered by Dr. Sunil Kumar Yadav and Prof. Pathik Pradhan, expressing gratitude to the resource persons for their invaluable contributions. The 'One Week Student Week' at Egra S.S.B. College succeeded in fostering academic enrichment, interdisciplinary learning, and practical insights, contributing significantly to the holistic development of the participating students.

Koushik Chatterjee is presenting

Specific fields in which deep learning is currently being used include the following:

- **Customer experience (CX).** Deep learning models are already being used for chatbots. And, as it continues to mature, deep learning is expected to be implemented in various businesses to improve CX and increase customer satisfaction.
- **Text generation.** Machines are being taught the grammar and style of a piece of text and are then using this model to automatically create a completely new text matching the proper spelling, grammar and style of the original text.
- **Aerospace and military.** Deep learning is being used to detect objects from satellites that identify areas of interest, as well as safe or unsafe zones for troops.
- **Industrial automation.** Deep learning is improving worker safety in environments like factories and warehouses by providing services that automatically detect when a worker or object is getting too close to a machine.

## Going Further with Artificial Intelligence

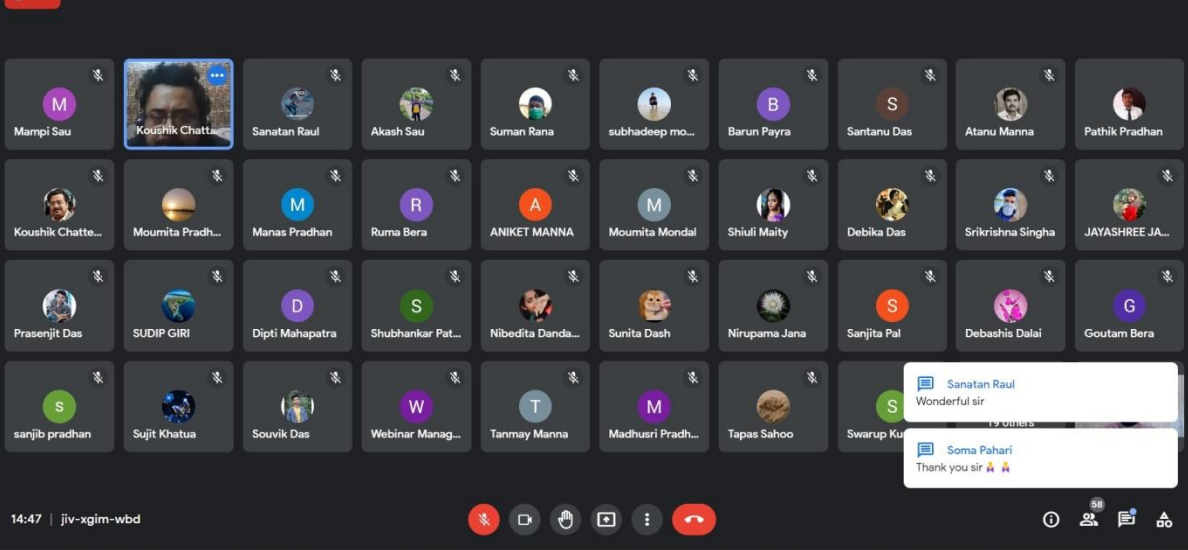

- Will we continue pushing the limits of AI, and develop a fifth type? How much progress will we make in the next decade toward theory of mind and self-aware AI? Maybe there will be a super-intelligent AI, that even surpasses the current intelligence of humans?
- Only time will tell – but understanding the distinctions between the different types of AI will help you make sense of AI advancements as science continues to push the limits.
